- **Overall increase:** This represents a **tripling** of shipping times from **Q1** to **Q4** (174 days vs 57 days).

# Insights and Recommendations

To better understand the reasons behind the decline, gather additional data and investigate root cause:

- **Analyze customer feedback:** Look for recurring themes or complaints that might indicate specific areas needing improvement.
- **Conduct surveys:** Survey your customers directly to understand their satisfaction levels and gather their feedback.
- **Monitor social media:** See what customers are saying about your brand on social media platforms.
- **Communicate with Customers:** Be transparent about delays and offer faster shipping options.

- **Market conditions:** Has there been a downturn in the overall market that's impacting your industry?
- **Product/Service Issues:** Were there any quality issues or negative customer feedback that affected sales?
- **Competition:** Have new competitors emerged, or have existing competitors gained market share?
- **Marketing/Sales Strategies:** Were there any changes in marketing or sales strategies that might have negatively impacted revenue?
